

A [Tropical Birding](#) Custom tour

Ecuador: Northern Specialties Custom Tour

8th - 23rd May 2021

Orange-fronted Barbet from *Silanche Bird Sanctuary*

Tour Leader: José Illanes

Report and Photos: José Illanes

INTRODUCTION:

This trip in northern Ecuador was a custom tour, with the specific aim of targeting specialties that were lifebirds for the person involved. The trip started by journeying northeast of the capital Quito, by car, where we targeted, and found, **Páramo Tapaculo**, **Andean Potoo** and **Red-hooded Tanager**. From there, we continued towards the *Amazon*, where *Gareno Lodge* was our final destination. On the way there we added some other target species, like **Plushcap** and **Point-tailed Palmcreeper**. At *Gareno* itself, birds came like **Fiery Topaz**, **Reddish-winged Bare-eye** and the stunning **White-plumed Antbird**, which were much wanted target species, along with other standouts like **Pavonine Quetzal**, **Ash-throated Gnateater**, **Hairy-crested Antbird**, **Rufous Potoo**, and **Slaty-backed Forest-Falcon**. From *Gareno* we swapped one Amazon area for another, this time visiting *Sani Lodge*. Some of the major requests that fell there included **Orange-eyed Flatbill**, **Amazonian Scrub-Flycatcher**, and **Orange-crested Manakin**, and on some Napo River islands we found **Black-and-white Antbird**, **Orange-fronted Plushcrown**, **Black-banded Crake**, while around the lodge we found the extremely local **Cocha Antshrike**. Other *Sani* highlights included **White-bellied and Parker's Spinetails**, **Great Potoo**, **Rusty-belted Tapaculo**, **Black-faced Anthrush**, **Sungrebe**, and **White-shouldered and Plumbeous Antbirds**.

This **Reddish-winged Bare-eye** was photographed near *Gareno Lodge*

After this extended stay in the *Amazon*, we headed uphill, into the markedly different foothills of the East Slope, at *Narupa Lodge* (which is owned by the Jocotoco Conservation Foundation). On the drive over, we picked up **Chestnut-headed Crake** (another requested species), as well as **Rufous-winged Antwren**, **Scaled Fruiteater**, and **Coppery-chested Jacamar**. From this location, we covered some different elevations as side trips from there.

A visit to *Wayra Private Reserve*, produced **Rufous-breasted Wood-quail**, while the *Guacamayos Ridge* yielded both the rare **Greater Scythebill** and extremely elusive **Peruvian Antpitta**. In the area around the lodge, we took in a variety of east slope foothill tanagers, including **Paradise, Spotted, Yellow-bellied and Golden-eared Tanagers**, and we also found **Greenish Puffleg, Sunbittern**, and **Green-backed Hillstar**, before we moved slopes, and transferred to the west slope, and its markedly different birds. We left early from *Quito* to cover the *Yanacocha Reserve*, where we found another target species, **Imperial Snipe** in display flight. The same reserve also got us **White-throated Screech-Owl, Andean Pygmy-Owl, Sword-billed Hummingbird, Golden-breasted Puffleg, Black-chested Mountain-Tanager**, and along the *Old Nono-Mindo Road*, we located **Torrent Duck** too. In the *Tandayapa Valley*, we found some great target species, like **White-faced Nunbird, Cloud-forest Pygmy-Owl** and the threatened **Tanager Finch**, while a visit to the western foothills produced the rare **Purple Quail-Dove**. Other major highlights in the *Tandayapa* area included **Plate-billed Mountain-Toucan, Toucan Barbet, Violet-tailed Sylph, Gorgeted Sunangel**, and the scarce **Chestnut-breasted Chlorophonia** in the upper cloudforests. Venturing downslope from there, the foothills and lowlands brought us other species like **Choco Toucan, Scarlet-browed, Tawny-crested and Rufous-winged Tanagers, Slate-throated Gnatcatcher, Esmeraldas Antbird** and the beautiful **Orange fronted Barbet**. By covering multiple elevations on both slopes of the Andes we were able to find many of the requested target species.

TOUR SUMMARY:

Day 1 (of birding) May 9th:
Papallacta Pass and Guango Lodge to Gareno.

After more than a year in lockdown, it was great to be part of this trip that focused on chasing down target birds in the north of Ecuador. We started out in the northeast, before going over to cover the west slope of the northwest afterwards. We began with a drive to the high *Papallacta Pass*, to the east of the capital. Our brief time there was for a specific elusive target species, **Paramo Tapaculo**. Thankfully, it did not take long to find it, and so we were soon on our way downslope to the temperate forest setting of *Guango Lodge*. Our main species we were seeking there was the **Andean Potoo**, which had been roosting there of late. Thankfully that was also the case on the morning of our visit too.

The feeders at *Guango* were (as ever) fantastic for hummingbirds, and we soon notched up **Speckled Hummingbird**, **Long-tailed Sylph**, **White-bellied Woodstar**, **Collared Inca**, **Chestnut-breasted Coronet**, and the cute **Tourmaline Sunangel**. We had another target species that was possible there, but often missed. However, on bumping into a mixed feeding flock, we soon managed to locate a **Red-hooded Tanager**, which was quite a surprise. Besides these few target species for the area, we enjoyed plenty of other birds there too, like Slaty and **Pale-naped Brushfinches**, **Rufous-breasted Flycatcher**, **Green-and-black Fruiteater**, **Montane and Strong-billed Woodcreepers**, **Capped Conebill**, **Mountain Cacique**, **Black-capped and Black-eared Hemispingus**, the cute **Plushcap**, and we even saw a flying **Black-and-chestnut Eagle**, a scare bird anywhere in Ecuador.

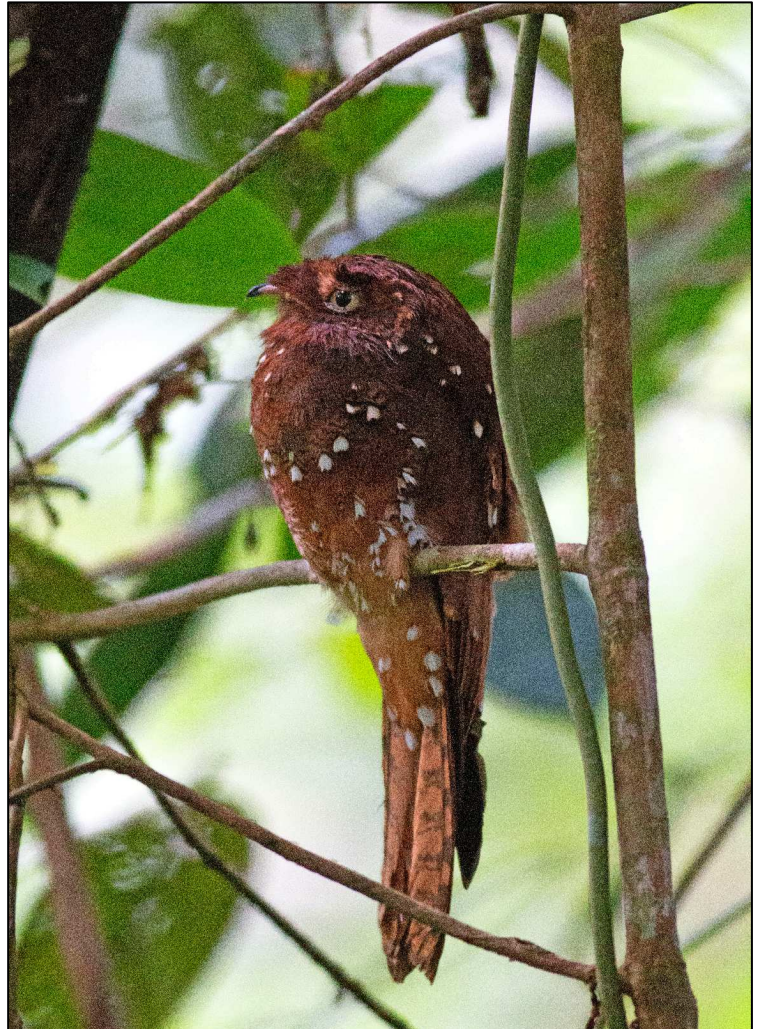

After such a productive morning at *Guango*, we headed off towards the *Gareno* area of the Amazon, but did some birding along the way, where we saw species like, **Violaceous Jay**, **Crested Oropendola**, **Chestnut-eared Araçari**, **Magpie and Masked-crimson Tanagers**, **Yellow-tufted Woodpecker**, **Scarlet-crowned Barbet**, **Red-breasted Meadowlark**, **Caquetá Seedeater**, and a **Point-tailed Palmcreeper** in their favored Moriche palm trees. We arrived at our hotel, near *Gareno Lodge*, in the late afternoon, which offered us air con and hot water for our comfortable stay in the Amazon.

Scarlet-crowned Barbet from the Amazon

Days 2-3 (May 10th-11th): Gareno.

We spent two full days in and around *Gareno*, while based at a comfortable hotel with hot water, Internet and air con, nearby, making this a very civilized way to go after a crop of specialty Amazonian birds. As is always the case in the Amazon, there was a need to work for the target birds, as many of them were not common species, but work we did, and find some we did too. One of the best finds was a **Fiery Topaz** foraging in some flowering trees, one of the specialties of *Gareno*. For some of the target birds we were seeking, we needed to find ants, and specifically swarms of army ants, as the species are obligate ant followers that spend their lives following these to prey on insects fleeing the swarm. We encountered a swarm, which was around for a few days and led us to find two further species on our “shopping list”, the spectacular **White-plumed Antbird** and striking **Reddish-winged Bare-eye**. The same antswarm yielded other ant followers too, including **Hairy-crested, Sooty and White-cheeked Antbirds**. We did some trail birding while in the *Gareno* area too, which produced **White-shouldered Antshrike, Peruvian Warbling, Black-faced and Yellow-browed Antbirds**. We also located some understory feeding flocks that held **Gray, Long-winged, White-flanked and Rufous-tailed**

Antwrens, Dusky-throated and Cinereous Antshrikes, and Tawny-crowned Greenlet, while higher up canopy feeding flocks held **Fulvous-shrike Tanager, Olive-backed Foliage-Gleaner, Chestnut-winged Hookbill, Flame-crested, Fulvous-crested, Yellow-bellied, Yellow-backed and Opal-crowned Tanagers, Pink-throated Becard, Dusky-chested Flycatcher, Dusky-capped and Lemon-chested Greenlets, Dugand’s Antwren and Black-bellied Cuckoo**. Other *Gareno* trailside highlights included **Yellow-billed and Great Jacamars, Brownish Twistwing, Ash-throated Gnateater, Blue-crowned and Blue-backed Manakins, and Coraya Wren**. We were really pleased to find one of the birds that *Gareno* is a known for in the form of a roosting **Rufous Potoo**, and Jose even managed to find a nemesis bird in the form of a **Slaty-backed Forest-Falcon** too. Aside from them a couple of vociferous **Pavonine Quetzals** were not to be sniffed at either. We worked hard over our two days in the area but were rewarded with a considerable birdlist from this precious piece of jungle that is protected by the local Waorani tribe.

Day 4 (May 12th): Gareno to Sani Lodge.

On this day we transferred from one piece of the Amazon to another. We moved away from the hilly part of the Amazon where *Gareno* is located to *Sani Lodge*, located in the flat Amazonian lowlands alongside the Napo River, a major tributary of the mighty Amazon itself. This was largely a travel day, as we drove to the oil town of *Coca*, and then took a boat downriver to *Sani Lodge*. The drive to *Coca* produced some roadside birds en-route, like **Swallow Tanager**, **White-eared Jacamar**, **Red-bellied Macaw**, **Speckled Chachalaca**, **Orange-backed Troupial**, **Southern Lapwing**, **Swallow-tailed Kite**, **Green-backed Trogon** and numerous **Bare-faced Ibis**.

Magpie Tanager from the Amazon

From *Coca* we took a motorized canoe along the *Napo River*, which does not have many birds, but we did spot the **Black and Yellow-headed Caracaras**, **Greater Yellow-headed Vulture** and **Cocoi Heron** during the two- and a half-hour boat ride to the *Sani Lodge* dock. From the dock, we walked twenty minutes through the Amazonian rainforest, and were able to locate another target species, **Orange-fronted Plushcrown**, which was a nice welcome to this new piece of jungle for us. Other species we saw before reaching the lodge included **White-winged Becard**, **Little Woodpecker**, and **Gray-fronted Dove**. The final stretch of the journey to the lodge was by hand-paddled, dugout canoe, paddled by the local staff, as we traversed the channel and lake to the lodge, during which time we found **Rufescent Tigger-Heron**, **Plumbeous and Silvered Antbirds**, **Yellow-crowned Elaenia**, **Ringed Kingfisher**, and **Great Potoo**.

While taking in a welcome drink at the lodge we saw a **White-chinned Jacamar**, and there was just enough time to find another target species, **Amazonian Scrub-Flycatcher**, behind the cabins to finish off a pretty good “travel” day!

Great Potoo close to *Sani Lodge*

Days 5-6 (May 13th-14th): Sani Lodge and Yasuni National Park.

For *Jose*, it was great to be back at *Sani*, where he grew up and so many of his family still live. We had two full days in the area in order to target a list of birds in the area. *Sani* is synonymous with one of the rarest of these, the **Cocha Antshrike**, which is a very local Amazonian species for which the nearby channels are good for. We managed to find a pair of that iconic species along a local creek, while another wanted species, **Hauxwell's Thrush** was found in a swampy area behind the lodge. Also, near the lodge we tracked down another requested species, **Orange-eyed Flatbill**, although we needed to travel by boat to a river island to find the **Black-and-white Antbird**, a specialty of these islands. Aside from these special target species we racked up plenty more birds besides. Around the lodge we also found **Hoatzin**, **Masked-crimson Tanager**, **Capped Heron**, **Gilded Barbet**, **Orange-winged Parrot**, **Sungrebe**, **Lesser Kiskadee**, **Wattled Jacana**, and **White-throated and Channel-billed Toucans**. As we were targeting particular species, we did not partake in the usual visit to the canopy tower near the lodge, as there were no new species offered there on this custom tour.

Female **Cocha Antshrike** at *Sani Lodge*

We also visited nearby Yasuni National Park, where we found **Rusty-belted Tapaculo**, **Black-faced Antthrush**, **Elegant and Buff-throated Woodcreepers**, **White-bearded and Golden-headed Manakins**, **White-Shouldered and Banded Antbirds**, **Red-necked Woodpecker**, **Great-billed Hermit**, **Black-tailed Trogon**, **Short-billed and Pygmy Antwrens**, and the cute **Lafresnaye's Piculet**. Also, on the local river islands we found **Chestnut-bellied Seedeater**, **Yellow-browed Sparrow**, **Oriole Blackbird**, **Olive-spotted Hummingbird**, **White-bellied and Parker's Spinetails**. At the end, our stay and visit to *Sani Lodge* was extremely successful. We had the lodge all to ourselves, found many of our specific target birds, and plenty more besides.

Day 7 (May 15th): Sani to Narupa Lodge.

Although our time in *Sani* was at its end, that did not prevent us from trying for a couple of final target birds before departing for good, with the east Andean foothills now in our sights. This led us into adding **Orange-crested Manakin** to our list. We also managed to see some other final birds, like **Black-capped Donacobius**, **Straight-billed Woodcreeper**, **Green-and-rufous Kingfisher**, **Blue-crowned Trogon** and the handsome **Dot-backed Antbird**. However, due to a tip off from Jose's cousin we were able to add another major target bird, and a scarce one at that, when we stopped off at a community property and found the shy and scarce, Black-banded **Crake**.

This **Orange-crested Manakin** was a very late addition at *Sani Lodge*

After that, it was time to take the boat back to Coca for another three hours upriver, where we didn't see too much, except for **White-winged and White-banded Swallows**, **Gray-breasted Martin**, and **Snowy and Great Egrets**. Once we get to *Coca*, we drove up to *Narupa Lodge* in the foothills of the Andes. Some brief birding on the way led us to finding **Coppery-chested Jacamar**, **Rufous-winged Antwren**, **Montane Foliage-Gleaner**, **Scaled Fruiteater** and another major target bird, a **Chestnut-headed Crake**. Eventually, we arrived at the lodge late in the evening ready for a warm supper.

Days 8-9 (May 16th-17th): **Wayra Reserve, Narupa Reserve and Guacamayos Ridge.**

For our first foray into the foothills we visited *Wayra Reserve*, where our primary target, the extremely difficult **Rufous-breasted Wood-quail** had been coming into a feeder of late. The cracked corn was laid out, but the quails seemed oblivious to it for a while. However, after waiting for some time, they finally came in and gave exceptional views for this normally shy and extremely difficult to see forest species.

Remarkable views of **Rufous-breasted Wood-quail** at *Wayra Reserve*

Over the next two days we experienced some heavy rains, but that did not stop us from exploring both of the reserves, *Narupa* and *Wayra*, which share similar bird lists. Some of the highlights included **Black-billed Treehunter**, **Montane Foliage-Gleaner**, **Olivaceous Greenlet**, **Orange-billed Sparrow**, and an assortment of *tanagers*, including **Silver-beaked**, **Yellow-bellied**, **Spotted**, **Golden-eared**, **Blue-necked** and **Paradise Tanagers**. Moving into lower areas of the reserve proved productive with great views of a **Sunbittern** in a creek beside the park ranger's house, in addition to **Cliff Flycatcher**, **Red-headed Barbet**, and **Andean Cock of the Rock**.

Rain and fog dogged our time at the *Guacamayos Ridge*, but we did manage to eke out **Hooded Mountain-Tanager**, **Turquoise Jay**, **Blue-backed Conebill**, **Mountain Cacique**, and the dandy **Grass-green Tanager**. The on-site feeders at *Narupa* were busy, with the eastern (buff-booted) subspecies of **Booted Racket-Tail**, **Bronzy Inca**, **Violet-fronted Brilliant**, **Golden-tailed Sapphire**, **Fork-tailed Woodnymph**, **Many-spotted Hummingbird**, **Green-backed Hillstar** and the scarce **Greenish Puffleg**.

The spectacular **Paradise Tanager** from Wayra Reserve

Day 10 (May 18th): Guacamayos Ridge to Quito.

After two days trying to dodge rain, we were glad to be able to bird the *Guacamayos Ridge* one more time, and this time in better weather. We quickly found a feeding flock that held one of the rarer residents of the area, and one we were very much seeking, **Greater Scythebill**. Fortune smiled on us on this day, and further along, we even managed views of the rarely seen **Peruvian Antpitta**. Aside from these two very special birds, we recorded other species like **Handsome Flycatcher**, **Dusky Piha**, **Red-billed Parrot**, **Long-tailed and Spillman's Tapaculos**, **Slaty-backed Chat-Tyrant**, **Slate-crowned Antpitta**, **Rufous-crowned Tody-Flycatcher**, **Streak-headed Antbird**, **White-throated Quail-dove**, **Blue-winged Mountain-Tanager**, **Short-billed Chlorospingus**, **Sepia-brown and Chestnut-breasted Wrens**, and **Chestnut-bellied Thrush**. After a final win on the famously ungenerous **Guacamayos Ridge**, we set off back for the capital *Quito*, experiencing some delays due to local landslides as we did so. We settled into *Quito* for a single night.

Green-backed Hillstar from Narupa

Day 11 (May 19th): Yanacocha to the Tandayapa Valley.

On this day we had an absurdly early start in order to try for the **Imperial Snipe** at the *Jocotoco Foundation* reserve of *Yanacocha*, which only displays there before and around dawn. We managed to hear the birds calling and get flight views as it made its display flight at dawn. Also, before we had daylight, we located a **Rufous-banded Owl** and got good looks at a **White-throated Screech-Owl** too. Once daylight came, we set about doing some more normal birding, finding mixed flocks with **White-throated and White-banded Tyrannulets**, **Crowned Chat-Tyrant**, **Yellow-breasted Brushfinch**, **Superciliaried Hemispingus**, **Masked Flowerpiercer**, **Blue-backed Conebill**, and **Spectacled Redstart**. The hummer feeders were typically lively, with **Great Sabrewing**, **Golden-breasted and Sapphire-vented Pufflegs**, **Mountain Velvetbreast** and the unique **Sword-billed Hummingbird** in attendance. Before leaving this area of wet temperate forest we also got the chance to see the beautiful **Scarlet-bellied and Black-chested Mountain-Tanager** coming to the local feeders and even found a day roosting **Band-winged Nightjar** and a very responsive **Andean Pygmy-Owl**. During the rest of the morning, we drove along the *Old Nono-Mindo Road*, on the way to *Tandayapa*, where we encountered **Red-crested Cotinga**, **Golden Grosbeak**, and both **Smoky and Streaked Bush-Tyrants**. While following the *Alambi River*, a little further along, we discovered a male **Torrent Duck** standing up on a rock.

Black-chested Mountain-Tanager at Yanacocha, on the same morning as a Torrent Duck in the Alambi Valley

We arrived at the famous *Tandayapa Bird Lodge* in time for lunch. While eating lunch, we had the chance to see some birds at the fruit feeders from the lodge window, including **Red-headed Barbet**, **Rufous Motmot**, **Crimson-rumped Toucanet**, and **Golden-naped, Golden and Black-capped Tanagers**, as well as a regional endemic, **Toucan Barbet**. The hummingbird feeders alongside held their own selection of birds too, with **Booted Racket-tail**, **Andean Emerald**, **Fawn-breasted Brilliant**, **Buff-tailed Coronet**, **Rufous-tailed Hummingbird**, **Lesser and Sparkling Violetears**, **Brown Inca**, **Purple-bibbed Whitetip**, **Violet-tailed Sylph**, and the miniature **Purple-throated Woodstar** all in attendance.

White-faced Nunbird from the *Upper Tandayapa Valley*

We'd already had a pretty action-packed day, but we did not let up the pace in the afternoon either, spending the afternoon targeting some specialties in the *Upper Tandayapa Valley*. We lucked in early, when the rare **White-faced Nunbird** responded to my call, and perched above us. Up until now this had been a very fortuitous day, and this did not end with the nunbird either. Further up we found **Grass-green Tanager**, **Chestnut-breasted Chlorophonia**, **Masked Trogon**, **Black-crested Warbler**, **Dusky Chlorospingus**, and the spectacular **Plate-billed Mountain- Toucan**. Then, shortly before giving up, we found the rarest of them all, a **Tanager Finch** that ended the day as it started, with a rare species. After this incredible day we returned to lodge to celebrate with a local Ecuadorian beer.

Tanager Finch in the *Upper Tandayapa Valley*

Day 12 (May 20th): Tandayapa Bird Lodge and Refugio Paz de las Aves.

After breakfast early at *Tandayapa Bird Lodge*, we left for *Paz de las Aves*, but did not take the usual full tour there as we were after some very specific species only. Shortly after arrival we located one of them, in the form of a calling **Cloud Forest Pygmy-Owl**. We did not find some of the other target species but did see some other species like **Violet-tailed Sylph**, the endemic **Velvet-purple Coronet** at the feeders, while the forest itself brought us the **Blue-winged Mountain-Tanager**, **Scaled Fruiteater**, **Rufous-breasted Antthrush**, **Golden-headed Quetzal**, **Rusty-winged Barbtail**, **Metallic-green Tanager** and the endemic, **Black-chinned Mountain-Tanager**. Before leaving the area we also saw a day roosting **Common Potoo** that brought our potoo tally for the trip to an amazing *four species!*

Velvet-purple Coronet from *Paz de las Aves*

Day 13 (May 21st): Mangaloma Reserve.

To maximize the chance of lifers for this custom tour, we left with a packed breakfast and lunch, taking them both in the field within this little-visited private reserve. Over breakfast, we took in some of the more common species in the reserve, like **Slaty Spinetail**, **Maroon-tailed Parakeet**, **Chocó Tyrannulet**, **Thick-billed Seedfinch**, **Black-winged Saltator**, **Pacific Antwren**, **Black-crowned Antshrike**, the noisy **Bay Wren**, **Buff-rumped Warbler**, **Bronze-winged Parrot**, **Ecuadorian Thrush**, **Thick-billed** and **Orange-bellied Euphonias**, and **Blue-necked Tanager**, and also saw a rare species in the form of a calling **Plumbeous Hawk**. One of the reasons for visiting this reserve, revealed itself once we walked the forest trails, when we got cracking looks at a **Purple Quail-Dove**. This same trail also held for us **Northern Schiffornis**, **Striped Woodhaunter**, **Broad-billed Motmot**, **Collared**, **Black-throated** and **White-tailed Trogons**, **White-whiskered Puffbird**, **Pallid Dove** and **Black-faced Anthrush**. Canopy species were also found in the same area, like **Lesser Greenlet**, **Russet Antshrike**, **Yellow-margined Flatbill**, **White-vented Euphonia**, **Red-rumped** and **Cinnamon Woodpeckers**, **Scarlet-rumped Cacique**, and **Ochre-breasted** and **Silver-throated Tanagers**, while in the understory we found **Slaty Antwren**, **Checker-throated Stipplethroat**, **Spot-crowned Antvireo**, **Bicolored**, **Chestnut-backed**, **Zeledon's** and **Esmeraldas Antbirds**, **Golden-bellied (Chocó) Warbler**, **Tawny-faced Gnatwren**, and **Dusky faced Tanager**. We also stumbled upon a rarely seen species in the form of the very local **Berlepsch's Tinamou**, which was very fortunate indeed. After this very productive day, we returned to *Tandayapa Bird Lodge* for another night.

Chocó Tyrannulet from *Silanche Bird Sanctuary*

Day 14 (May 22nd): Rio Silanche Bird Sanctuary and Guaycapi.

For our final day of the tour we decided to bird the western lowlands, by visiting *Rio Silanche Bird Sanctuary* well downhill from the lodge at *Tandayapa*. We left before dawn and headed straight to the canopy tower in the sanctuary with our field breakfast taken there. A fruiting tree nearby brought in quite a few birds, and we soon notched up **Scarlet-browed, Tawny-crested and Rufous-winged Tanagers, Scarlet-thighed, Yellow-tufted and Scarlet-breasted Dacnis, Slate-throated Gnatcatcher, Green Honeycreeper** and the striking **Orange-fronted Barbet**. Also from there we were able to spot **White-necked Puffbird, Blue-tailed (Chocó) Trogon, Black-crowned Tityra, Dusky Pigeon, Collared (Pale-mandibled) Araçari** and some vocal **Yellow-throated and Chocó Toucans**, as well as **White-collared and Lesser Swallow-tailed Swifts**, and **Guayaquil Woodpecker**. Some flowering bushes below attracted hummers like, **Purple-chested Hummingbird, Purple-crowned Fairy, and White-whiskered and Stripe-throated Hermits**. As we needed to be back in *Quito* early (in order to take the required Covid test for departures home) it was soon time to leave the area, and so we took lunch in a nice restaurant, with hummingbird feeders, on the journey back to the capital. This stop in *Guaycapi Restaurant* allowed us to watch hummingbirds while taking our final meal, including the cute **Purple-throated Woodstar, Rufous-tailed Hummingbird, Fawn-breasted and Green-crowned Brilliants, Buff-tailed Coronet, White-necked Jacobin**, and the always adorable **Booted Racket-tail**. Then it was back to *Quito* and to reflect on a tour with more than 570 birds seen while covering only the north of the country!

Black-faced (Yellow-tufted) Dacnis from *Silanche* and Purple-throated Woodstar from *Guaycapi*

Our total species for the trip was 627 species, with 574 of these seen

BIRD LIST

The taxonomy of the bird list follows eBird/Clements, J. F., T. S. Schulenberg, M. J. Iliff, D. Roberson, T. A. Fredericks, B. L. Sullivan, and C. L. Wood. 2019. The eBird/Clements checklist of birds of the world: v2019. Downloaded from <http://www.birds.cornell.edu/clementschecklist/download/>)

(H) indicates a species that was HEARD only.

TINAMOUS

Black Tinamou
Great Tinamou
White-throated Tinamou
Cinereous Tinamou
Berlepsch's Tinamou
Little Tinamou
Undulated Tinamou

DUCKS, GEESE, AND WATERFOWL

Torrent Duck
Yellow-billed Pintail
Andean Teal
Andean Duck

GUANS, CHACHALACAS AND CURASSOWS

Speckled Chachalaca
Andean Guan
Spix's Guan
Blue-throated Piping-Guan
Wattled Guan
Sickle-winged Guan

NEW WORLD QUAIL

Rufous-fronted Wood-Quail
Rufous-breasted Wood-Quail

GREBES

Pied-billed Grebe

PIGEONS AND DOVES

Rock Pigeon
Pale-vented Pigeon
Band-tailed Pigeon
Plumbeous Pigeon
Ruddy Pigeon
Dusky Pigeon
Common Ground-Dove

TINAMIDAE

Tinamus osgoodi H
Tinamus major H
Tinamus guttatus H
Crypturellus cinereus H
Crypturellus berlepschi
Crypturellus soui H
Crypturellus undulatus

ANATIDAE

Merganetta armata
Anas georgica
Anas andium
Oxyura ferruginea

CRACIDAE

Ortalis guttata
Penelope montagnii
Penelope jacquacu H
Pipile cumanensis
Aburria aburri H
Chamaepetes goudotii

ODONTOPHORIDAE

Odontophorus erythrops H
Odontophorus speciosus

PODICIPEDIDAE

Podilymbus podiceps

COLUMBIDAE

Columba livia
Patagioenas cayennensis
Patagioenas fasciata
Patagioenas plumbea H
Patagioenas subvinacea
Patagioenas goodsoni
Columbina passerina

Ruddy Ground-Dove
 Blue Ground-Dove
 Purple Quail-Dove
 Sapphire Quail-Dove
 Ruddy Quail-Dove
 White-tipped Dove
 Gray-fronted Dove
 Pallid Dove
 White-throated Quail-Dove

EARED DOVES**CUCKOOS**

Greater Ani
 Smooth-billed Ani
 Squirrel Cuckoo
 Black-bellied Cuckoo

NIGHTJARS

Band-winged Nightjar
 Common Pauraque
 Lyre-tailed Nightjar
 Ladder-tailed Nightjar

POTOOS

Great Potoo
 Common Potoo
 Andean Potoo
 Rufous Potoo

SWIFTS

Chestnut-collared Swift
 White-collared Swift
 Short-tailed Swift
 Gray-rumped Swift
 Lesser Swallow-tailed Swift
 Fork-tailed Palm-Swift

HUMMINGBIRDS

Fiery Topaz
 White-necked Jacobin
 Rufous-breasted Hermit
 White-bearded Hermit
 White-whiskered Hermit
 Green Hermit
 Tawny-bellied Hermit
 Straight-billed Hermit
 Great-billed Hermit

Columbina talpacoti
Claravis pretiosa
Geotrygon purpurata
Geotrygon saphirina
Geotrygon montana
Leptotila verreauxi
Leptotila rufaxilla
Leptotila pallida
Zentrygon frenata
Zenaida auriculata

H

CUCULIDAE

Crotophaga major
Crotophaga ani
Piaya cayana
Piaya melanogaster

CAPRIMULGIDAE

Systellura longirostris
Nyctidromus albicollis
Uropsalis lyra
Hydropsalis climacocerca

NYCTIBIIDAE

Nyctibius grandis
Nyctibius griseus
Nyctibius maculosus
Nyctibius bracteatus

APODIDAE

Streptoprocne rutila
Streptoprocne zonaris
Chaetura brachyura
Chaetura cinereiventris
Panyptila cayennensis
Tachornis squamata

TROCHILIDAE

Topaza pyra
Florisuga mellivora
Glaucis hirsutus
Phaethornis hispidus
Phaethornis yaruqui
Phaethornis guy
Phaethornis syrmatorphorus
Phaethornis bourcierii
Phaethornis malaris

Stripe-throated Hermit	<i>Phaethornis striigularis</i>
Brown Violetear	<i>Colibri delphinae</i>
Lesser Violetear	<i>Colibri cyanotus</i>
Sparkling Violetear	<i>Colibri coruscans</i>
Purple-crowned Fairy	<i>Heliotheryx barroti</i>
Black-throated Mango	<i>Anthracothorax nigricollis</i>
Gorgeted Sunangel	<i>Heliangelus strophianus</i>
Tourmaline Sunangel	<i>Heliangelus exortis</i>
Wire-crested Thorntail	<i>Discosura popelairii</i>
Black-bellied Thorntail	<i>Discosura langsdorffi</i>
Green Thorntail	<i>Discosura conversii</i>
Speckled Hummingbird	<i>Adelomyia melanogenys</i>
Long-tailed Sylph	<i>Agelaiocercus kingii</i>
Violet-tailed Sylph	<i>Agelaiocercus coelestis</i>
Black-tailed Trainbearer	<i>Lesbia victoriae</i>
Purple-backed Thornbill	<i>Ramphomicron microrhynchum</i>
Rainbow-bearded Thornbill	<i>Chalcostigma herrani</i>
Tyrian Metaltail	<i>Metallura tyrianthina</i>
Greenish Puffleg	<i>Haplophaedia aureliae</i>
Sapphire-vented Puffleg	<i>Eriocnemis luciani</i>
Golden-breasted Puffleg	<i>Eriocnemis mosquera</i>
Shining Sunbeam	<i>Aglaeactis cupripennis</i>
Bronzy Inca	<i>Coeligena coeligena</i>
Brown Inca	<i>Coeligena wilsoni</i>
Collared Inca	<i>Coeligena torquata</i>
Buff-winged Starfrontlet	<i>Coeligena lutetiae</i>
Mountain Velvetbreast	<i>Lafresnaya lafresnayi</i>

Psarocolius decumanus
Cacicus solitarius
Cacicus uropygialis uropygialis

Scarlet-rumped Cacique (Pacific)
 Yellow-rumped Cacique
 Mountain Cacique
 Orange-backed Troupial
 Shiny Cowbird
 Giant Cowbird
 Scrub Blackbird
 Oriole Blackbird

NEW WORLD WARBLERS

Tropical Parula
 Three-striped Warbler
 Black-crested Warbler
 Buff-rumped Warbler
 Golden-bellied Warbler
 Russet-crowned Warbler
 Slate-throated Redstart
 Spectacled Redstart

MITROSPINGID TANAGERS

Dusky-faced Tanager

GROSBEAKS AND ALLIES

White-winged Tanager
 Red-hooded Tanager
 Ochre-breasted Tanager
 Golden Grosbeak

TANAGERS AND ALLIES

Red-capped Cardinal
 Magpie Tanager
 Black-capped Hemispingus
 Black-eared Hemispingus
 Superciliaried Hemispingus
 Flame-crested Tanager
 Fulvous-crested Tanager
 White-shouldered Tanager
 Tawny-crested Tanager
 White-lined Tanager
 Fulvous Shrike-Tanager
 Flame-rumped Tanager
 Silver-beaked Tanager
 Masked Crimson Tanager
 Hooded Mountain-Tanager
 Black-chested Mountain-Tanager
 Grass-green Tanager

Cacicus uropygialis pacificus
Cacicus cela
Cacicus chrysonotus
Icterus croconotus
Molothrus bonariensis
Molothrus oryzivorus
Dives waczewiczi
Gymnomystax mexicanus

PARULIDAE

Setophaga pitiayumi
Basileuterus tristriatus
Myiothlypis nigrocristata
Myiothlypis fulvicauda
Myiothlypis chrysogaster
Myiothlypis coronata
Myioborus miniatus
Myioborus melanocephalus

MITROSPINGIDAE

Mitrospingus cassinii

CARDINALIDAE

Piranga leucoptera
Piranga rubriceps
Chlorothraupis stolzmanni
Pheucticus chrysogaster

THRAUPIDAE

Paroaria gularis
Cissopis leverianus
Kleinothraupis atropileus
Sphenopsis melanotis
Thlypopsis superciliaris
Tachyphonus cristatus
Tachyphonus surinamus
Tachyphonus luctuosus
Tachyphonus delatrii
Tachyphonus rufus
Lanio fulvus
Ramphocelus flammigerus
Ramphocelus carbo
Ramphocelus nigrogularis
Buthraupis montana
Cnemathraupis eximia
Chlorornis riefferii

Lacrimose Mountain-Tanager	<i>Anisognathus lacrymosus</i>
Scarlet-bellied Mountain-Tanager	<i>Anisognathus igniventris</i>
Blue-winged Mountain-Tanager	<i>Anisognathus somptuosus</i>
Black-chinned Mountain-Tanager	<i>Anisognathus notabilis</i>
Blue-gray Tanager	<i>Thraupis episcopus</i>
Palm Tanager	<i>Thraupis palmarum</i>
Blue-capped Tanager	<i>Thraupis cyanocephala</i>
Yellow-bellied Tanager	<i>Ixothraupis xanthogastra</i>
Spotted Tanager	<i>Ixothraupis punctata</i>
Golden-naped Tanager	<i>Tangara ruficervix</i>
Black-capped Tanager	<i>Tangara heinei</i>
Blue-necked Tanager	<i>Tangara cyanicollis</i>
Beryl-spangled Tanager	<i>Tangara nigroviridis</i>
Metallic-green Tanager	<i>Tangara labradorides</i>
Paradise Tanager	<i>Tangara chilensis</i>
Opal-crowned Tanager	<i>Tangara callophrys</i>
Rufous-winged Tanager	<i>Tangara lavinia</i>
Bay-headed Tanager	<i>Tangara gyrola</i>
Golden-eared Tanager	<i>Tangara chrysotis</i>
Flame-faced Tanager	<i>Tangara parzudakii</i>
Green-and-gold Tanager	<i>Tangara schrankii</i>
Golden Tanager	<i>Tangara arthus</i>
Silver-throated Tanager	<i>Tangara icterocephala</i>
Swallow Tanager	<i>Tersina viridis</i>
Black-faced Dacnis	<i>Dacnis lineata</i>
Black-faced (Yellow-tufted) Dacnis	<i>Dacnis lineata aequatorialis</i>
Yellow-bellied Dacnis	<i>Dacnis flaviventer</i>
Scarlet-thighed Dacnis	<i>Dacnis venusta</i>
Blue Dacnis	<i>Dacnis cayana</i>
Scarlet-breasted Dacnis	<i>Dacnis berlepschi</i>
Purple Honeycreeper	<i>Cyanerpes caeruleus</i>
Green Honeycreeper	<i>Chlorophanes spiza</i>
Scarlet-browed Tanager	<i>Heterospingus xanthopygius</i>
Yellow-backed Tanager	<i>Hemithraupis flavicollis</i>
Blue-backed Conebill	<i>Conirostrum sitticolor</i>
Capped Conebill	<i>Conirostrum albifrons</i>
Cinereous Conebill	<i>Conirostrum cinereum</i>
Glossy Flowerpiercer	<i>Diglossa lafresnayii</i>
Black Flowerpiercer	<i>Diglossa humeralis</i>
Deep-blue Flowerpiercer	<i>Diglossa glauca</i>
Masked Flowerpiercer	<i>Diglossa cyanea</i>
Plushcap	<i>Catamblyrhynchus diadema</i>

Plumbeous Sierra-Finch	<i>Geospizopsis unicolor</i>
Gray-hooded Bush Tanager	<i>Cnemoscopus rubrirostris</i>
Blue-black Grassquit	<i>Volatinia jacarina</i>
Chestnut-bellied Seedeater	<i>Sporophila castaneiventris</i>
Thick-billed Seed-Finch	<i>Sporophila funerea</i>
Chestnut-bellied Seed-Finch	<i>Sporophila angolensis</i>
Variable Seedeater	<i>Sporophila corvina</i>
Caquetá Seedeater	<i>Sporophila murallae</i>
Yellow-bellied Seedeater	<i>Sporophila nigricollis</i>
Plain-colored Seedeater	<i>Catamenia inornata</i>
Bananaquit	<i>Coereba flaveola</i>
Buff-throated Saltator	<i>Saltator maximus</i>
Black-winged Saltator	<i>Saltator atripennis</i>
Grayish Saltator	<i>Saltator coerulescens</i>
Slate-colored Grosbeak	<i>Saltator grossus</i>

MAMMALS

Pygmy Marmoset	<i>Callithrix pygmaea</i>
Graells's (Black-mantled) Tamarin	<i>Saguinus graellsii</i>
Golden-mantled Tamarin	<i>Saguinus tripartitus</i>
White-fronted Capuchin	<i>Cebus albifrons</i>
Common Squirrel Monkey	<i>Saimiri sciureus</i>
White-tailed (Dusky) Titi	<i>Callicebus discolor</i>
Venezuelan Red Howler	<i>Alouatta seniculus</i>
Black Agouti	<i>Dasyprocta fuliginosa</i>
Tapeti (Brazilian Rabbit)	<i>Sylvilagus brasiliensis</i>
Proboscis Bat	<i>Rhynchonycteris naso</i>
South American Coati	<i>Nasua nasua</i>
South American (Brazilian) Tapir	<i>Tapirus terrestris</i>

REPTILES

Yellow-spotted River-Turtle	<i>Podocnemis unifilis</i>
Black Caiman	<i>Melanosuchus niger</i>
Amazon Forest-Dragon	<i>Enyalioides laticeps</i>
