

NAMIBIA & ZAMBIA: NAMIB DESERT TO VIC FALLS

A Tropical Birding / Audubon Shop Custom Birding Tour

August 5-20, 2024

TOUR SUMMARY

This was a custom trip for an Audubon Shop group. Unlike previous versions of this trip, we skipped the Okavango Delta, and instead explored the Zambezi River and ended the trip at Victoria Falls. The variety of scenery was staggering: from the sand dunes of Sossusvlei to the mighty Zambezi River lined with gallery forest. Bird highlights included Namib escarpment endemics like Herero Chat and White-tailed Shrike, and desert specials like Rueppell's Bustard and Dune Lark. Farther north, diversity increased, and some of the highlights there included Pel's Fishing-Owl (see photo above), African Finfoot, and White-backed Night-Heron. Actually all three of these amazing species were seen on one night boat trip! The mammals were also great. Out in the desert we had Southern Oryx and Springbok; along the escarpment were Rock Hyrax and Black Mongoose; Etosha had hordes of beasts including Black Rhino, Lion, and African Elephant; and up north we had African Buffalo and Malbrouk monkey. This trip had a lot of logistical

challenges, including late-arriving luggage, a breakdown in the desert, and a very long border crossing, but these all made for good stories, and our group maintained good spirits throughout. Thanks to all – it was a pleasure to travel with you!
